## New maximum size record for the Chili sea catfish *Notarius troschelii* (Siluriformes: Ariidae) from the tropical eastern Pacific

José De La Cruz Agüero, Víctor Manuel Cota Gómez & José T. Nieto Navarro

On 30 September 2007, one specimen of Chili sea catfish *Notarius troschelii* was collected by a shrimp trawler on the continental shelf of the Mexican State of Nayarit. The fish, with a total length of 706 mm and a weight of 3910 g, constitutes a new record of maximum length and weight for this species.<br/>

Palabras clave: Ariidae, Eastern Pacific, record size, *Notarius troschelii*, sea catfish
